

EMBASSY OF THE
UNITED ARAB EMIRATES
WASHINGTON DC

سفارة
الإمارات العربية المتحدة
واشنطن

April 29, 2011
Ref: 1/3/7 – 90

Mr. Neal Spungen,
President,
Got Green Energy,
8320 Old Courthouse Rd.
Vienna, VA 22182

Dear Mr. Spungen:

When the UAE Embassy requested the assistance of Got Green Energy to address our sustainability needs, we had great expectations. As a leader in sustainability, we asked Got Green Energy to offer tangible solutions to reduce our environmental impact while being respectful of our culture. To our surprise, Got Green Energy exceeded even the greatest of our expectations providing us proven solutions to reduce our environmental impact while saving the Embassy a significant amount of money in the process.

With expert guidance from Got Green Energy, we are now equipped to save hundreds of thousands of dollars by implementing sustainability practices throughout the entire Embassy. With a newly educated workforce in sustainability, we can significantly reduce our energy consumption and reduce our overall carbon footprint.

We offer our highest recommendation to Got Green Energy for the outstanding work they've done for The UAE Embassy. I would highly recommend you to any company who is interested in addressing their sustainability needs.

Sincerely,

Omar Alshamsi,
Deputy Chief of Mission
